

Monday, Busiest Courtday in Years

The largest crowd for a long time was in the city on Monday, court day. Cattle, good grade stock, were from the various counties east of us and with those that failed to be penned the number was approximately 7,500, and the eager buyers were made up largely from the blue grass belt. When the evening had shadowed the city the pens were about empty, with a very few left over for today's sales. In this connection we will not undertake to give names of those who sold and the buyers. We only have to say the buyers were eager and that bidding was active.

From the best judgments this day was considered the most active since the beginning of declines in values, and every business man on the market was in high spirits.

The best steers, weights around 1,000 pounds, brought 6 cents; medium grades of lesser weights were sold at 5 1-2 cents and the good grades went at 5 cents. The stock of 450 pounds and the rise to 500 pounds went at 4 1-2 cents and that came under the head of ragged brought less money. Calves brought around 4 cents. Oxen in good condition brought 3 1-2 to 4 1-2 cents. Bulls sold right at 4 cents. Calves averaged about \$12.50 per head. Only a few sheep were on the market with no sale above that of September court. There were only a few hogs offered. A few pedigreed Duroc boars sold at \$20 per head. Weanling mules brought from \$30 to \$65 per head. A few work mules went at \$125 and higher per head. Plug horses were numerous and changed ownership rapidly at prices from \$30 to \$60. Good horses well broke brought \$125 and the rise.

The cattle market was off, as compared with the September court, about 50 cents per hundred.

The activity among the traders the high spirits gave to all an optimistic spirit that entered into mercantile lines and from the merchants our reporters brought in good news.

Maysville street dry goods merchants report big sales, the greater part of which were on the cash basis. One merchant said, "My sales Saturday and today surpassed any my best days of the last year. As the Maysville street dry goods merchants reported, so did one Main street merchant give the most encouraging news. Clothing men on the corners gave out flattering reports also, one of them saying, "We had all the trade we could handle."

Our reporter came in touch with only a few of our grocers. Their business was very good, some saying it was better in volume even at the lower prices than it was in 1920.

The restaurants had all the trade they could handle and the soft drink stands were literally run over.

The Advocate in both the job printing rooms and in the newspaper department is running full and it's with effort that we can meet the demands of our patrons. All indications, notwithstanding threatening labor strikes, point that prosperity is here; that the pocketbook strings have slackened and that we are entering a season of prosperity equal to any times of the past.

PASTOR CALLED

Sunday morning after the worship hour the Mt. Sterling Baptist church was called to order in business capacity to hear reports from the pulpit committee and board of deacons. The reports recommended Rev. O. M. Huey, of Louisville, for the consideration of the church, whereupon the church decided and went into a call, resulting in the selection of Rev. Huey as pastor of the Mt. Sterling church. The committee notified Rev. Huey at once and they expect an answer from him during the week.

The object of the church is to install a new pastor by the time that Rev. Goldsmith goes to Shelbyville.

Good Woman, as Grain Ready for Sickle, Dies

After seven weeks of intense suffering, at the home of George M. McAllister, West Main street, Mrs. Anna C. Cockrell, entered on rest Saturday morning at 5 o'clock. Funeral service was conducted at the Christian church Sunday afternoon by Rev. Clyde Darsie, assisted by Rev. B. W. Trimble, after which interment took place in Machpelah Cemetery. Mrs. Cockrell was a daughter of Henry and Margaret Calmes of Clark county, and was the last of a large family of ten children to pass, was married to Col. B. F. Cockrell, deceased in 1892. She is survived by 11 nieces and nephews and two stepsons, L. B. Cockrell, of Winchester, and Marion Cockrell, of this city. Mrs. Cockrell was a woman of a charming character and as evidence that she was tenderly loved by those with whom she had associated was the many floral designs that covered her casket.

Since early childhood Mrs. Cockrell had been a member of the Christian church and to it locally and all objects fostered she was a liberal contributor, a church worker and a most estimable woman. Those from her native county who paid the last token of respect to this devoted woman were:

Mr. and Mrs. L. B. Cockrell, Dr. and Mrs. B. A. Cockrell, Mrs. L. L. Cockrell, Mr. and Mrs. A. J. Earp, Mr. and Mrs. W. H. Gilliam, Mr. and Mrs. J. W. Nunnally, Mrs. Lee S. Baldwin, Mr. Charles Smith and family; Mrs. Clinton W. Hawkins of Versailles, and Chenault Cockrell of Louisville.

A RARE OPPORTUNITY

On Thursday and Friday of this week a representative of one of the leading manufacturers of the country will be at Keller's store with a large and complete selection of Ladies' and Misses' Coats and Suits, which will be offered to the public at absolute manufacturer's cost. This concern is overloaded and must dispose of its goods and offers to sacrifice same to the benefit of Mr. Keller's customers. Do not forget the days, and be on hand early.

Sacrificed Life From Over Seas Laid to Rest

William Botts Pangburn, only son of Mr. and Mrs. Charles Pangburn, whose body was received here Friday night, was buried at Machpelah Cemetery Sunday afternoon with military honors. Services were conducted at the grave by the Montgomery Post, with Rev. Clyde Darsie assisting and ten former comrades-in-arms acting as pallbearers.

William Pangburn was born in Mt. Sterling March 12, 1899, and was reared and educated in this city. Shortly after our entrance into the world war, he enlisted in the United States Marine Corps, was sent to France with his division and fought heroically in most of the major engagements on the western front. He was killed in action near Champagne, France, October, 1918, a victim of German shrapnel, and was first interred in that country, the "Eternal Camping Ground" of thousands of America's soldier sons.

The contributions by flowers and the large crowd that filled the available space at the cemetery were fit testimonials of appreciation and love for the boy who sacrificed his life for America's democracy that was threatened by an almost invincible foe.

William Pangburn was a boy with boys, loved by them, the idol of a grief-stricken mother, of father and sisters. His name and the gallantry of the brave soldier boy that he was won't perish with the flowers that blanket his grave, but will live on and on as the years come and go until memory has faded and time is no more.

On his bier we place the coronation, we drop the tear as the heart in sympathy and love, not for him, for he is all of glory, but for those who have loved and lost.

May it be that on that day when the earth and the seas shall give up their dead, William Botts Pangburn shall be among the first to come forth, approved by faith in Him. Peace to his ashes, love and sympathy to his kindred.

CIRCUIT COURT IN SESSION

Circuit court convened in this city yesterday morning with Judge H. R. Prewitt on the bench. The court was partly organized and then adjourned until this morning when Judge Prewitt delivered one of the strongest charges to a grand jury against all kinds of lawlessness ever heard in this city. The docket this term is a light one and is not expected to consume any considerable length of time.

Mrs. Boardman Dies In Bourbon County

Mrs. Minerva Boardman, believed to have been the oldest woman in Bourbon county, died Monday morning from the effects of a deep cold which affected her first about two weeks ago. She was 91 years old Sunday and died at 3 o'clock Monday morning at the home of her daughter, Mrs. McClure, near Plunk Lick. Funeral services will be held at 11 o'clock Wednesday morning at Little Rock, burial following in the North Middletown cemetery. She had many relatives in this county.

Mrs. Boardman was the mother of John W. Boardman, of this city, and was one of Bourbon county's most highly respected citizens and was beloved by all who knew her. She was a member of the Little Rock Christian church, having confessed the faith when she was but a young girl, becoming a member of the Little Rock Christian church. Besides a host of relative in Bourbon county she has a number of very close relatives in this city and county.

Will of Mrs. Anna C. Cockrell is Probated

In county court Monday the will of Mrs. Anna C. Cockrell was filed and probated. After disposing of her personal belongings, the testatrix made the following specific bequests: To Mrs. Anna McAllister, \$5,000; to Bright Cockrell, Allison Cockrell, Lindsay Cockrell, Burns Cockrell, Chenault Cockrell and Mrs. Elizabeth Hawkins the sum of \$1,000 each, and to the Christian church of Mt. Sterling \$500. The balance of the estate of the testatrix is to be divided equally among her eleven nieces and nephews. M. O. Cockrell was nominated as executor and qualified by giving bond in the sum of \$100,000.

Bible Conference Has An Auspicious Opening

Sunday night was the opening of the great Bible conference. Dr. J. W. Lawrence, of Dallas, Texas, was the speaker and delivered an enthusiastic address on "Authority—Church, Reason and the Bible." It was a great address and well received. The singing of J. W. Troy was of unusual merit and was a striking and attractive feature of the service. Those who heard him will hear him at every opportunity, and those who did not will only know what they missed when they hear him.

Dr. W. B. Riley, of Minneapolis, pastor of one of the largest churches of the middle west, and one of the greatest spiritual leaders of the country, is the director of the conference. Associated with him are Dr. Munhall, of Philadelphia, internationally known evangelist, and for the past few years editor of the Eastern Methodist. He will be here Thursday night and speak at the Christian church. At three o'clock Sunday afternoon at the Tabb theatre Dr. Munhall will deliver his world-famous address on "The Book of Books." He will also speak at seven o'clock at the same place. A special invitation is extended to the business and professional men.

It is expected that Dr. Riley will be here on Wednesday and speak at the Baptist church at 2:30 p. m. and at the Christian church at 7. His theme will be "Whose Son was Christ?" This will probably be Dr. Riley's only appearance in the city, and no one can afford to miss hearing this gifted orator and director of the conference.

Dr. Lawrence, who spoke Sunday night, will speak tonight at the Christian church. These men have just concluded a series of conferences in Memphis, Tenn., and Danville, Ill., where the buildings were too small to accommodate the audiences. Never in the history of those cities has there been anything like it before.

J. W. Troy, of Chicago, the leader of the conference singing, will feature the popular song "The Sunshine of Your Smile" at the Wednesday night service. This will likely be Mr. Troy's last service in the town during the conference. These men go to St. Paul, Minn., in November, to Oklahoma in December and to Florida in January.

LEVY FOR SCHOOL PURPOSES

The court received the following communication from the County Board of Education of Montgomery County, which is in words and figures as follows, to-wit:

County Board of Education of Montgomery County, Kentucky.

"To the Fiscal Court of Montgomery County: Gentlemen:—

The County Board of Education of Montgomery County, pursuant to the rules of the State Board of Education, and with the aid and advice of our County Superintendent, as directed by the laws of this Commonwealth (being Acts of the General Assembly 1920, approved March 22, 1920), hereby submits an itemized statement or budget showing the amount of money needed for supplementing teachers' salaries, for permanent improvements, repairs, furniture, etc., and for maintenance and support of the schools under the jurisdiction and supervision of our board for the succeeding school year 1921-1922, after deducting the State funds available and all other income, resources and funds on hand or in process of collection, and showing the amount which will be needed to be raised by local taxation, including the rate of levy necessary to raise such amount, viz:

Salaries of teachers, superintendent and other administrative offices.....\$35000.00
Postage, stationery, printing, express, etc.....300.00
New buildings and grounds.....6000.00
Repairs and improvements of old building & grounds.....500.00
Furniture and equipment.....2000.00
Supplies, fuel, janitor service.....667.16
Transportation of pupils and tuition.....500.00
Interest and insurance.....500.00
Outstanding indebtedness.....3000.00
Estimated cost of collecting tax.....1450.00
Other expenses not included in any of above items.....500.00

Making a total of.....\$49917.16

Of this sum we will receive from the State of Kentucky approximately.....\$12000.00

We have cash on hand unexpended from previous year or years.....

Estimated revenue from all other sources.....

Total income from all sources.....\$12000.00

Leaving balance, to be supplied by local taxation.....\$37917.16

The total assessed valuation of all property subject to taxation for school purposes in this county, as shown by the final certification of the Board of Tax Supervisors (excluding property in cities and graded school districts not subject to the tax) amounts to.....\$9146790.00

Based on this assessed valuation, it will be necessary, in order to raise the funds needed, as shown in the foregoing itemized statement, to make a levy of 40 cents on each one hundred dollars of taxable property which is subject to the tax, located in the county.

We respectfully request that the Fiscal Court shall also impose upon each legal voter residing in the county, who is subject thereto, a capitation tax of not exceeding one dollar; and after imposing the capitation tax, you levy such a rate, within the limit fixed by law, on all property subject to the tax as will produce the funds needed, as shown by this request.

The foregoing statement is respectfully submitted by order of the County Board of Education on this 7th day of June, 1921.

MORTON FAULKNER,

Chairman County Board of Education,
R. C. PALMETER, Vice Chair.
Montgomery County, Kentucky."

GEORGIE V. SLEDD, Secretary.

The law makes it the duty of the Fiscal Court to make the levy asked for by the board and in accordance with the above request we only made a levy of 37 cents on each one hundred dollars worth of property outside the city of Mt. Sterling and one dollar poll tax. We did not make the full 40 cent levy because we declined to make a levy to cover the alleged three thousand dollars of indebtedness.

GOVERNMENT TRUCKS

Since our last report the Federal Government has allotted the county another truck, making four in all; one Velee, one U. S. A. truck and two F. W. D. trucks. These trucks are very expensive to operate; very expensive to keep in repair; in fact we have found it almost impossible to keep them all running at the same time.

MACHINERY

Since our last report we have purchased a large Adams Leaning-Wheel Road Grader, at the cost of \$777.00; also sprinkler at cost of about \$300.00 for tank and about \$150.00 for sprinkler apparatus.

CONDITION OF ROADS

The condition of our roads are nothing like as good as we would like to have them, but they are in the best possible condition that they can be made with our present road fund, even after the most strenuous efforts of our most efficient and faithful Road Engineer, Mr. W. H. Canan. And he and the court ask the co-operation of the citizens in all parts of the county, because the roads will not now stand up under the heavy automobile traffic.

FUTURE OF OUR ROADS

As is well known on May 28th., 1921, this county voted and gave the Fiscal Court authority to issue not exceeding \$250,000.00 to be used only towards the construction or rather re-construction of some high-class type of road on what is known as the Federal Aid roads and then only to the extent of 25 per cent of the cost of such roads.

Since the voting of said bond issue your court has entered into a contract or agreement with the State Highway Commission of Kentucky to pay \$35,000.00 and not exceeding one-fourth the cost thereof of the construction or re-construction

on the Mt. Sterling and Winchester pike leading from Mt. Sterling to the Clark county line.

The blue prints are now being made on the survey that was made two years ago and this work is being pushed and will be pushed until the road is finally completed.

On the other Federal Aid roads—one leading to the Bath county line—the other to the Menefee county line—nothing will probably be done this year, as same is pending the action of Congress on the Federal Aid road bills now before it.

Since our last report the State has taken over 3.1 miles of the Camargo pike, being that portion from the city limits to Greenbriar school house, and recently the State surface-treated it with oil and gravel. The State has also taken over the Paris pike and surface-treated it.

In the future the roads above named will be maintained by the State at its own expense, under what is known as the Patrol System; a patrolman being constantly on each, to see that they do not deteriorate for want of immediate attention.

This will be a great relief to the county in the future and will enable us to devote our entire time and turnpike resources elsewhere.

We are also endeavoring to induce the State to surface-treat that part of the Maysville pike from the Paris pike to the city limits, and feel we have a good chance to get this done.

CARROLL COUNTY MAKING PLANS FOR FAIR NOV. 4-5

Plans are rapidly being completed by Carroll county farmers, County Agent G. C. Rouett and other interested parties for a farmers' fair to be held in that county November 4 and 5, according to reports from the county. Corn, tobacco, poultry and dairy and beef cattle and hogs will be featured in the fair which is expected to be one of the most elaborate ever held in the county.

Since tobacco is one of the main crops of the county exhibits of this crop are expected to be among the most important one at the fair. More than \$100 in cash premiums have already been offered as prizes to successful tobacco exhibitors. The final premium list of the fair is expected to be more than \$600, according to the county agent. Members of the junior agricultural club in the county who are raising pigs and poultry as their club projects will participate in the fair.

ROWAN COUNTY NEWS

(By S. S. Cassity)

The news may be a little stale, but I want to say that the recent term of circuit court held here by Judge Henry R. Prewitt has had a better effect, morally on Rowan county, than all the preaching that has been done here since Judge E. C. Phister held the first circuit court. Another term or two like this one was will minimize lawlessness in Rowan county. The old easy way of letting a law-breaker confess on one of several indictments, take the lowest and file the rest away has just about had its day in Judge Prewitt's court. He believes in putting everything before a jury without compromise.

Last week Sheriff N. L. Wills and assistants, A. W. Fraley, App Perry, John Trumbo, Otis Maxey and C. C. Carter, found and destroyed on the farm of Jesse Pettit, on Slab Camp branch, a still constructed of two zinc washing tubs, together with a quantity of wash. Sheriff Wills and his posse are making the festive moonshiner and bootlegger live hard in these "diggins."

An airship has been circling over Morehead all day, starting from its base near the town of Clearfield. The charge is \$10 for a 15 minutes' ride, and quite a number have screwed their courage up and parted with their cash.

Politics is warming up here. Perhaps it would be better to say the election is warming up, for the issue here in the county and city is not altogether political, but it is a fight between law and order on one side and lawlessness on the other—between decency and indecency—between sobriety and drunkenness. There are candidates of both political parties who will stand for strict law enforcement while there are others (not Democrats, however) who are the avowed friends of the moonshiner and bootlegger, but the voters of this county, we are happy

to say, know the sheep from the goats.

The Midland Trail from Morehead to Licking river, eight miles, will be completed in November. It is constructed of stone and asphalt and is said to be one of the best roads in the state. The upper section from Morehead to the Carter county line has been surveyed, located and cross-sectioned and may be let some time this month.

News reached here this morning that a man named Whitt was fatally shot at Olive Hill Saturday morning. The two men who did the shooting came westward on a freight train, the dispatch said.

The Midland Trail hotel, recently completed and opened on Main street, is having a splendid patronage under the management of John Cecil and Stephen Caudill.

Howard Lewis recently erected a handsome bungalow on Main street.

Mr. and Mrs. James Densler (nee Miss Elizabeth Young) have moved to the Big Sandy valley, where Mr. Densler has lucrative employment.

Fred Wheeler, one of our traveling lumbermen, is at home on a visit.

Emmett Lewis, who "made good" in Oklahoma oil, has moved into the residence of Mrs. Laura Clayton on Main street, Mrs. Clayton having moved to Ashland.

Robert Reese and wife (nee Miss Myrtle Clayton) of West Liberty, are visiting her mother, Mrs. Belle Clayton.

BEST AMONG THE SCHOLARS AND ORATORS OF THE U. S.

Beginning last Sunday, October 16th, and continuing until after the 23rd, will be discussed in this city by men of literary distinction, Christian Fundamentals. These men are to address the people of Mt. Sterling two times daily at the churches of the city as indicated in the program printed elsewhere in this issue. These great men represent Christian Fundamentals in an organization of four years standing and are a selection of the most prominent men of the Christian denominations, one from the Methodist, one from the Presbyterian, one from the Congregationalists, and two from the Baptists, one representing Baptists of the North and the other of the South.

To all of our people who would be informed on Christian fundamentals on which these denominations are agreed, and who oppose the heresies as taught by these of a different belief should take advantage of this, the greatest and most important of religious gatherings of representative scholars. Read the program, clip from The Advocate and keep. No charge to any of these meetings. The invitation is to all.

OPPOSES THE CONSTITUTIONAL AMENDMENTS

Harry Sommers in the Elizabethtown News says:

"Permitting school teachers to dictate school legislation would be the same as permitting railroad presidents to fix freight rates; bankers to fix the interest rate and manufacturers to write the tariff laws. It is class legislation, and class legislation is wrong in principle."

This statement of Mr. Sommers' is worth serious consideration.

The editor of the Elizabethtown News adds:

"The more the people study the proposed school amendments the more certain they are to vote against them."

LABOR AND CAPITAL

For some time there has been an unrest between these two great powers, the one contending for the maintenance of present prices with time limitations and the other for a reduction of wages. It seems at this time the clash is on and that the people down the line who are the dependants are to suffer for a season.

We do not know a better time than now to settle this matter. The unrest is at too great a tension for endurance. If it is inevitable, let it come and let it be settled now, once for all.

ACT PROMPTLY

Again we call attention of a few of our land owners along the line of the proposed hard-surfaced good roads to connect Montgomery and Clark counties, a distance of three and a half miles, that the rights of way have not been completed and most earnestly request these land owners along this line to call at once on R. G. Kern or Mark Prewitt and settle this matter that the contract may be let and that work on this road may be begun at once.

OVER THE HILL

This William Fox production is a wonder among the best pictures put on the canvas. To this exhibition the Ada Meade, Lexington, has extended an invitation to the Kentucky press and as to this story in picture the editor has to say, as in the beginning of this article, it is a wonder.

So vivid of life the attention once engaged is held to the close. The Ada Meade gives the picture to the public during this week and we are sure those fortunate enough to see it will be entertained from the beginning to the end.

The loving heart of the real mother is life's vicissitudes with a large family is the story pathetically portrayed by picture.

Fleming County Goes Over Top in Leaf Drive

With nine of the largest of the counties in the burley tobacco district over the top, having already signed 75 per cent or more of their tobacco, and 45 others within "striking distance" of the goal some of them above 70 per cent, there is to be no let up in the campaign to obtain the signatures of tobacco growers to the marketing plan of the Burley Tobacco Growers' Co-operative Association.

Fleming county went over the top Friday, it was reported at headquarters at Lexington.

The counties which have signed 75 per cent or more of their crops are Fayette, Bourbon, Woodford, Montgomery, Lincoln, Bath, Carter, Fleming and Nicholas. The counties near the 75 per cent quota include the big burley producing counties of Scott, Mercer, Boyle, Madison, Shelby, Clark, Jessamine, Grant, Mason, Garrard and others.

Good county organizations have been perfected in all the Kentucky counties which produce burley as well as the burley growing counties of Ohio, Indiana, West Virginia and Tennessee, and Organization Manager Joseph Passonneau said yesterday that he had no doubt of the ultimate success of the association in pledging three-fourths of the crop of the proposed marketing plan.

From now until the drop of the flag on the night of November 14 an intensive campaign is to be made to line up every possible tobacco grower in the district for the association workers, making a house-to-house canvasses in each county have been planned by most of the county chairmen and this precinct drive, which is to be made in connection with the speaking campaign is expected to bring about the desired result by the time the campaign closes on the night of November 14.

As an example of the effectiveness of the local county campaigns, the result in the counties of Montgomery, Bourbon, Woodford and Bath are given as showing what can be accomplished when the business and professional men join the farmers in such a movement. These counties reported the following work done, and with efforts to sign the rest of the crop being made.

	1920	Acreage	Signed
Montgomery	3,800	3,800	3,660
Bourbon	8,500	8,500	7,476
Woodford	5,500	5,500	4,428
Bath	3,600	3,600	3,348

These figures do not include any of the tobacco signed up the past week, which has not yet been reported to the central offices of the association.

Mrs. Stofor Entertains

Charming in their Hallowe'en motifs were the beautiful luncheons given on Wednesday and Friday of last week by Mrs. Albert Stofor at her palatial home in the country. The interior was a bower of loveliness, fall flowers of various colors decorating both floors, and baskets of blossoms were used on the veranda. On the dining table, tied with a huge bow of tulle, was a large silver basket filled with ferns and yellow and white dahlias. The card tables were set with individual

motifs, the place cards and favors carrying out the black and gold scheme. In the center of each table was a Hallowe'en vase filled with delicate yellow and white flowers to suit the occasion. A most delightful luncheon was served, consisting of a meat course, ices, salad, sandwiches, candies, etc., characterizing the efficiency of the charming hostess. Following the luncheon Wednesday the guests enjoyed an afternoon of "500," while on Friday interesting games of "Rook" were played. Mrs. Stofor's invited guests included: Mesdames Grover Anderson, Roger Barnes, John Botts, Frank Boyd, Walter Bridges, Marion Bridges, Percy Bryan, John Robinson, Sam Carrington, Emma Chennault, W. C. Clay, J. Will Clay, C. T. Derriekson, C. B. Duerson, Allen Prewitt, J. C. Graves, Chas. Harry B. Ringo, popular merchant, who has been quite ill with typhoid fever, is improving slowly.

Mrs. H. R. Prewitt, who has been ill with pneumonia, has sufficiently recovered to be able to be out.

Capt. Ed. N. Woods is critically ill at his home on East Main street, and his daughter, Mrs. W. S. Sanders, of Atlanta, Ga., has been notified to come to her father's bedside at once.

"UNCLE" JOHNNIE GRANT DIES

"Uncle" Johnnie Grant, widely known here, who formerly made his home at the Old National Hotel in this city, died at a hotel in Louisville one day last week. Mr. Grant had many friends here and the news of his death will be received with much regret. He left property, consisting of mountain land, valued at \$60,000, to his daughter in Scotland.

TO THE VOTERS

I take this method of announcing myself as a candidate for re-election as a member of the County Board of Education.

I know there has been considerable criticism of the amount of money that has been expended by the board as well as the methods and character of the expenditures. These things are matters of public record and every expenditure should have the spotlight of publicity turned on it. I have not always voted with the majority of the board on certain expenditures and I ask the people to investigate my record in office before deciding on how they will cast their votes. I have lived in Montgomery county all of my life and if elected to this office will endeavor in the future as I have in the past to render the best possible service of which I am capable, regardless of political or factional differences. If you believe I will give you an honest, efficient administration I will be grateful for your support and influence. FRANK M. LOCKRIDGE.

Approacheth also the season when a poor man tries to convince himself that he likes chickens as well as turkey.

PROPERLY FED EWES PRODUCE BEST LAMBS

Ewes which are properly fed from now until lambing time and are in good condition when that period arrives are more apt to give birth to sturdy, vigorous lambs and to have the necessary amount of milk to make their offspring grow rapidly than those which are poorly fed during the coming months, sheep specialists at the College of Agriculture say. Being well fed and having an adequate supply of milk the ewes are less likely to disown their lambs than are the thin, improperly nourished ones. Although the ewes should not be given a fattening ration they should be kept in rather high condition from now until lambing time, according to L. J. Horlacher, sheep specialist of the college.

Ewes which have a considerable reserve of fat when the lambs are born come through the suckling period in better shape than poorly fed mothers since this is a period when the demands on them are so great that they frequently fail to maintain their weight in spite of the fact that they may have been well fed. So important is the matter of having the animals in good condition that in case a few of them are thin at the end of the breeding season they should be placed in separate pens and given an extra amount of feed, the specialists say.

Grass pastures, oats or wheat stubbles and corn stalks may be utilized for feed during the fall months. Sheep should be turned on these fields as early as possible because the feeds deteriorate rapidly in feeding value due to rains. While early-sown rye is good to furnish succulence and causes the ewes to take exercise it is not a substantial feed and does not have much fattening power.

Ordinarily it is profitable to begin feeding the ewes a little hay and grain about one month before lambing time and it is sometimes advisable to begin even earlier. Unless the ewes are exceedingly thin they need not receive more than one-half pound of grain each day. Whole oats have been found to be a good grain feed. Another good grain mixture is composed of equal parts by weight of oats and bran. Corn alone should not be fed unless a leguminous hay such as clover or alfalfa is being fed. A small amount

of corn mixed with oats and bran may be fed without harm. Such feeds as bran and linseed meal while beneficial are usually too costly to add to the ration. It is usually advisable to make use of the poorer grades of roughages before lambing time and save the best grades for the ewes to eat while the lambs are young.

FARMERS TO SHOW VALUE OF BALANCED HOG RATION

Demonstrations to show the value of a balanced ration throughout the year in the economical production of pork will be conducted during 1922 by a number of Western Kentucky farmers in co-operation with the extension division of the College of

Agriculture and county agents, according to an announcement by Grady Sellards, swine field agent of the college, under whose direction the trials will be made. A total of seven demonstrators have already been enrolled in Carlisle, Ballard, McCracken and Livingston counties.

January 1, 1922, the farmers will start feeding a balanced ration composed of one part of tankage and nine parts of corn to growing and fattening pigs. In cases where the animals are to be pushed for an early market the ration will be fed in a self-feeder since experiments have shown that pigs fed by this method make approximately nine per cent faster gains than those which are fed by hand. The demonstrations will be continued until the animals are placed on the market and will include the hogging down of corn and soybeans grown together.

WHO IS JANE'S TEACHER?

(By Anne Goodwin Williams)

"Who is Jane's Teacher?" we asked of the mother of a charming little eight year old girl. The mother mentioned the name of Jane's teacher in the public school and then together we performed some arithmetical problems to prove that "Miss Bennett" was only one of Jane's many teachers and that her teaching hours were less than those of some of the others.

Suppose, we said, that Jane sleeps from seven o'clock until seven then in a year she has 4,380 waking hours—and only 1,000 of those hours are spent in school during the year—What of the 3,380 hours remaining? Who is teaching Jane, then? She is certainly learning. Sometimes her playmates are her teachers, with lessons sometimes helpful, sometimes harmful. The father's teaching hours are limited to Sundays and holidays with an occasional evening hour; the Sunday School teacher may get twenty-five hours a year, but of course, the real teacher is the mother. Every day of the year, she teaches her little daughter; even during the child's sickness lessons continue, lessons of patience, gentleness and self control.

If anyone were to ask of the school teacher that she teach music and manual training, she would know it was impossible. And yet, that is just what is demanded of the mother as an educator.

Music! Yes, she is teaching music when she sings at her work or helps Jane select good music for the Victrola instead of Jazz. And as she arranges her home tastefully, with appropriate pictures, she is often unconsciously forming the child's taste in Art.

"What stories shall I read to the children?" we kindergartners are asked again and again by eager mothers who feel that ordinary "trashy" stories are not good enough for the children who are so greatly influenced by the stories they hear and read.

The mother knows—this wise mother-educator who is asked to teach domestic science, how necessary it is for her little daughter to learn helpfulness in household duties. "I can't iron big things yet but I can iron all the handkerchiefs, daddy's and mother's and John's and mine," said little Jane with pride.

Actions are judged right or wrong according to mother's approval or disapproval. She is, indeed, the great teacher of morals. "Slip in behind these people so the conductor won't see you," I heard a woman say to a little boy one day as I was boarding a crowded street car. He succeeded in "fooling the conductor" and in getting a definite lesson in cheating and in dishonesty.

Religious training, as well as moral, is part of the great task and the joyous task of the teacher-mother—and is it not a glad sign for future America that so many mothers of our great country are, in their hearts, uniting in the prayer of "Motherhood" so beautifully given by Eleanor Robbins Wilson in a recent number of Good House-keeping?

"So short a time at my command These children that I hold tonight, God give me grace to understand, Wisdom to guide their steps aright

That I may be throughout the land, A lamp unto their feet for light.

"So short a time do small hands cling, With confidence of babyhood, Let me not idly dream the thing, But live the noble part I should, That henceforth from such mothering

They shall instinctively seek good. "So short a time for my embrace, For love, cheer, comfort, lullabies, God help me hallow the brief space That turns to gold each sacrifice— So surely does a mother's grace Build her soul's mansion in the skies."

SHORT COURSE TO FEATURE MANY LIVESTOCK SUBJECTS

With the increased interest in better livestock and the more economical production of it which is being manifested in Kentucky plans are being made by the College of Agriculture to give special attention to this phase of farming in the short course which it will offer to busy farm men and boys during the coming winter. Instruction in livestock subjects will be given in the regular winter course which opens October 31. The work will include a study of breeds of livestock and the judging of them, principles of feeding, livestock feeding, beef production, sheep and pork production, breeding farm animals, farm butchering and diseases of livestock, together with a judging contest which will be held for all students taking the course.

In order to make the course as valuable as possible in giving those enrolled the desired training in livestock subjects the entire animal husbandry faculty of the college together with the livestock equipment and the laboratories of the institution will be utilized in the studies. Practically all phases of livestock production from a study of the different breed types to the marketing of farm animals will be given in the course. The herds of Hereford, Shorthorn, Jersey and Guernsey cattle, Berkshire, Duroc-Jersey and Poland China hogs together with the flocks of Southdown, Hampshire, Cheviot and Shropshire sheep and representatives of other breeds of animals on the college farm will be available for judging. Students will be given an opportunity of seeing and studying individual animals of high merit by visiting the many noted farms in the vicinity of Lexington.

Thomas Duff bought a farm from Everett Hopkins for \$6,500. The house is now occupied by Clifton Johnson and wife.

Mrs. Charles Price, who was very sick last week, is able to be out again.

Mrs. Eliza Roe, of Owingsville, visited S. J. Ratliff and family this week.

Mrs. Thomas Jones and Mrs. Walter Quisenberry spent one day this week with their parents, Jonas Reynolds and wife.

Mrs. J. D. Alexander and Mrs. Cornelius Williams spent Friday with Charles Payne and family at Camargo.

Little Berkley and Robert Thomson, of Mt. Sterling, visited their grandmother, Mrs. Callie Ragan.

Burbridge Ratliff went to Ewing Friday.

Mrs. H. D. Blevins and daughter, Miss Clay, spent Wednesday with H. B. Hobbs and wife.

J. M. Steele was in Olympia Saturday.

It is pleasant to take, the babies cry for it. What? WALLACE'S LIVERADE. It aids the liver, acts gently, no griping or unpleasant effects.

Saturday Night Special. It took several hundred years to make men out of monkeys, but it sometimes takes five minutes to reverse the process.

"GOOD MORNING"

You may reap the red thorns, But, whatever befall, Hats off to the world, And "Good morning to all!"

OCTOBER CROP REPORT

With the growing season almost ended, except for very late tobacco and a small amount of the late corn that is now maturing, Kentucky's crop conditions now indicate the production of approximately 89,324,000 bushels of corn compared to 100,650,000 bushels last year, and 337,068,000 pounds of tobacco compared to 387,500,000 pounds last year. The United States entire tobacco crop this year is now estimated at 991,540,000 pounds compared to 1,508,064,000 pounds last year, or about 34 per cent decrease.

These estimates were issued at Louisville and Frankfort by H. F. Bryant, Kentucky representative of the U. S. Bureau of Markets and Crop Estimates, and State Commissioner of Agriculture W. C. Hanna. The following estimates of other crops produced in Kentucky this year, with comparisons with 1920 crops, were issued at the same time:

Health Brings Beauty

Every Woman Should Read This

Bankston, Ala. — "I had been down with trouble of a feminine character for a good many years. I took medicine from different doctors, but it did not do me any good. Then I heard of Dr. Pierce's Favorite Prescription and I ordered some of this medicine. I took six dollars' worth of it and I would not take sixty for the good it did me. I surely can praise Dr. Pierce's Favorite Prescription. I don't intend to be without it in my home as long as I can get it. I would advise every woman that is bothered with trouble from which women suffer, to use this Prescription." — Mrs. Williamson, Route 2.

Get this Prescription of Dr. Pierce's in tablets or liquid and see how quickly you will have sparkling eyes, a clear skin and vim, vigor, vitality. Write Dr. Pierce's Invalids' Hotel in Buffalo, N. Y., for free medical advice.

Oats 6,574,000 bushels compared to 8,225,000 bushels last year; barley 96,000 bushels compared to 112,000 bushels last year; potatoes 3,775,000 bushels compared to 6,435,000 bushels last year; sweet potatoes 1,769,000 bushels compared to 1,890,000 last year; sorghum molasses 4,334,000 gallons compared to 4,845,000 gallons last year; clover seed 30,000 bushels compared to 52,000 bushels last year; apples 1,215,000 bushels compared to 5,780,000 bushels last year; pears 29,000 bushels compared to 308,000 bushels last year.

Condition of the minor crops is as follows: Buckwheat 90 per cent; pasture 96 per cent; field peas 85 per cent; cabbage average yield per acre 2 tons; onions per cent of normal 83; average yield per acre 95 bushels; grapes condition 47 per cent; pears 8 per cent; broom corn per cent of normal yield per acre 85; sorghum for syrup condition 86 per cent; nverage yield of syrup per acre 90.3 gallons.

Tired

"I was weak and run-down," relates Mrs. Eula Burnett, of Dalton, Ga. "I was thin and just felt tired, all the time. I didn't rest well. I wasn't ever hungry. I knew, by this, I needed a tonic, and as there is none better than—

CARDUI

The Woman's Tonic

... I began using Cardui," continues Mrs. Burnett. "After my first bottle, I slept better and ate better. I took four bottles. Now I'm well, feel just fine, eat and sleep, my skin is clear and I have gained and sure feel that Cardui is the best tonic ever made."

Thousands of other women have found Cardui just as Mrs. Burnett did. It should help you.

SELF RELIANCE GOES BANKRUPT

Thin Blood Saps Energy, Gude's Pepto-Mangan Rebuilds the Blood.

Wrestling with a weakened condition of the blood is a desperate struggle. Thin, watery blood deprives the body of energy and causes a played-out feeling not unlike utter exhaustion. A man with weak blood has not the full use of his powers. He lacks decision, and vacillates until he loses self-confidence.

Some men, and women too, go flinching along for months scarcely realizing that they need Gude's Pepto-Mangan, the blood-builder. But when they have taken it for a while, what a difference there is in the feelings! The old-time vigor and the red-blooded hue of good health return. The new rich blood gets to work, building, fortifying, lifting the spirit up to its normal standard. Physicians have prescribed Gude's Pepto-Mangan for years as a blood-builder. Druggists sell it in liquid form. Look for the name "Gude's Pepto-Mangan" on the package. Advertisement.

A MESSENGER TO GARCIA

The local newspaper is the messenger to Garcia for your town. It goes out to the world as an advertisement for the community. To be a good advertisement it must be a good newspaper. To be a good newspaper it must have the support of the people of the community in the way of subscriptions and advertising. Are you doing your part toward making your paper a good advertisement for this community, one that will carry the kind of a message the people of the community wish carried to the world?

McCOMBS CASE DROPPED

Officers and directors of the McCombs Producing and Refining Co. indicted in federal court for conspiracy to defraud, will not be tried for these alleged offenses, Judge Walter Evans decided last week when he dismissed the indictments against them. The motion to nolle was made by W. V. Gregory, district attorney, with the consent and advice of Harry M. Daugherty, attorney general.

Those affected by the dismissal are Abram, Renick, Felix Renick, J. C. McCombs, John McLoughlin, Roasirro Maggio, Paul M. Wade, Dr. H. A. Moore, Harry A. Mahoney and Frank W. Davis.

Abram Renick and McLoughlin were convicted last May before a special grand jury of using the mails to defraud, and were fined \$10,000 each. A previous trial on the conspiracy resulted in a hung jury.

FARMERS TO HAVE HELP IN FIGHT ON BLIGHT OF SPUDS

In order to help farmers of the state combat the late blight of potatoes which this year resulted in heavy losses plans are already being made by the extension division of the College of Agriculture for winter and spring meetings and summer spraying demonstrations to show farmers of the state the importance of this method of controlling the disease, according to an announcement by J. S. Gardner, field agent in horticulture, under whose supervision the work is being carried on. Dates for meetings are being arranged on request in counties where farmers are being troubled with the disease and other plans being made to assist as many growers as possible in reducing the loss.

which blight causes to their crops.

A number of farmers this year controlled the blight in their fields by spraying with Bordeaux mixture as many as three times during the season. Some sprayed only once while others sprayed their crops twice. Fields which were sprayed three times have been practically free of the pest while heavy losses occurred in those which were not sprayed, according to Mr. Gardner.

TO THOSE OPPOSED TO SCHOOL AMENDMENTS

In an observation of political campaigns embracing many years, the News has never known so unanimous a sentiment in Hardin county on any issue submitted to the people as there is in opposition to the two school amendments.

It is not an extravagant statement to say that among the considerable number of Hardin county men and women whose views are known to this paper, the ratio is fifty to one in favor of the opposition.

But there is a very large class of our population which does not concern itself over elections, especially about academic matters, involving constitutional changes and where no personalities are involved.

This enormous vote must not be overlooked by the opponents of the amendments. Every man and woman who is against the adoption of the amendments should become an evangel in the cause. They should inform their friends and neighbors of the issue that is to be decided at the polls in November.

The vote in Hardin county this year necessarily will be light. There is only a languid interest in the outcome of the county races. In Louisville, where four daily papers are supporting the amendment, the vote will be enormously heavy on account of the mayor's race, which will be decided simultaneously.

Louisville is reported to be strongly in favor of the amendments, and the only hope of the amendments' supported is for a heavy vote in Louisville, which is assured, and for a light vote in counties like Hardin, where no important contests are to be decided.

The intelligent citizenship of Hardin county should meet that condition by registering its full strength at the polls on November 8.

The fight is won with a full vote in the country, but it may be lost if an extremely light vote is cast.

The time has come for every man in Hardin county who is against the amendments to talk to his friends and get them to vote!—Elizabeth-town News.

STRONG FOR THE HOME PAPER

"No, I don't take the local paper any more," one farmer said to another as they were waiting at the creamery to unload their milk.

They had just been looking at a poster advertising "Subscribe for your home town paper week, Nov. 7-12." "I take a daily paper and it's about all I need. It has a few items every week from our community, and I feel that I save two dollars a year by not subscribing for the home paper."

"Well, that is one way to look at it," said the other farmer, "but I have always felt that a local newspaper was a pretty valuable asset to any community, and if everybody took the attitude you do, there wouldn't be any local paper. Of course we couldn't get along without our daily papers, because they keep us informed about what is going on throughout the nation and throughout the world, but when you say that they take care of the local news, I don't think you are sticking close to facts. They simply can't and the publishers have no interest in our community the way our own editor has."

"I have always felt that I got value received for every dollar I've paid out in subscriptions to the local paper, and I don't have any idea that running a country newspaper is any more of a wealth-producing proposition than running a farm. So long as I've got two dollars I intend that the rural mail carrier is going to tuck a copy of the home paper in my box every week."

The farmer knows that the community newspaper is a necessity in his home; that without it his home would be incomplete and his part in the community would be unsatisfactory to himself and to his family. He knows the full value of the local newspaper as an institution.

CAMPBELL DAIRYING MAKES RAPID GROWTH

Campbell county's dairying industry has advanced rapidly during the past year, partly as a result of the work done by the cow testing association organized among farmers of that district, according to a report made by County Agent H. F. Ling, following the organization of the association for another year. Before the association was formed the purebred dairy cattle in the county did not number more than a dozen while at the present time there are more than 90 purebred cows in the county bull association, the organization of which marked another step in the advancement of the industry. With a co-operative testing association and a similar association whose members use purebred sires Campbell county stands out as one of the most progressive dairy counties in the state.

Get From Three to Six Thousand More Miles Out of Your Old Tire

It may look about like the one to the left. When this tire came to our shop the tread was mostly gone, but the fabric was still sound. A tire without a tread is only worth the price of old rubber—the junk man usually gets them. But when we build on a genuine Dry Cure tread it's worth—well, you know what a good tire is selling for today. On the right is the same casing after being retreaded by our experts. This tire is now in condition to give from three to six thousand additional miles of service. It will pay you mighty well to have your tires retreaded—RIGHT. Bring them over today.

PROSPERITY IS COMING

The speedy return of prosperity, with plenty of work for all, is predicted by two notable figures in industrial and mercantile circles, Charles E. Bedford, president of the Vacuum Oil Company, and John Wanamaker, merchant, of New York and Philadelphia.

"Business revival week," says Mr. Wanamaker, "I think, will expand into a business revival of years and years. I have more faith in America today and more expectation for the future than at any time in my 60 years as a merchant."

"Instead of curtailing our advertising we are enlarging it. Instead of standing pat on our stores as they have been we are retiling, rearranging, rebuilding and improving them. To do this we have given employment to large bodies of mechanics and others day and night."

"There will be plenty of work for all if we show our faith not by relaxing our efforts, holding back in fear, putting on blue glasses and keeping our money in our pockets."

but by making needed improvements, starting to build and rebuilding, buying and selling—putting to work our energies, our brains, our money—everything we have—for the good of the country."
